

Digital Radio Summit

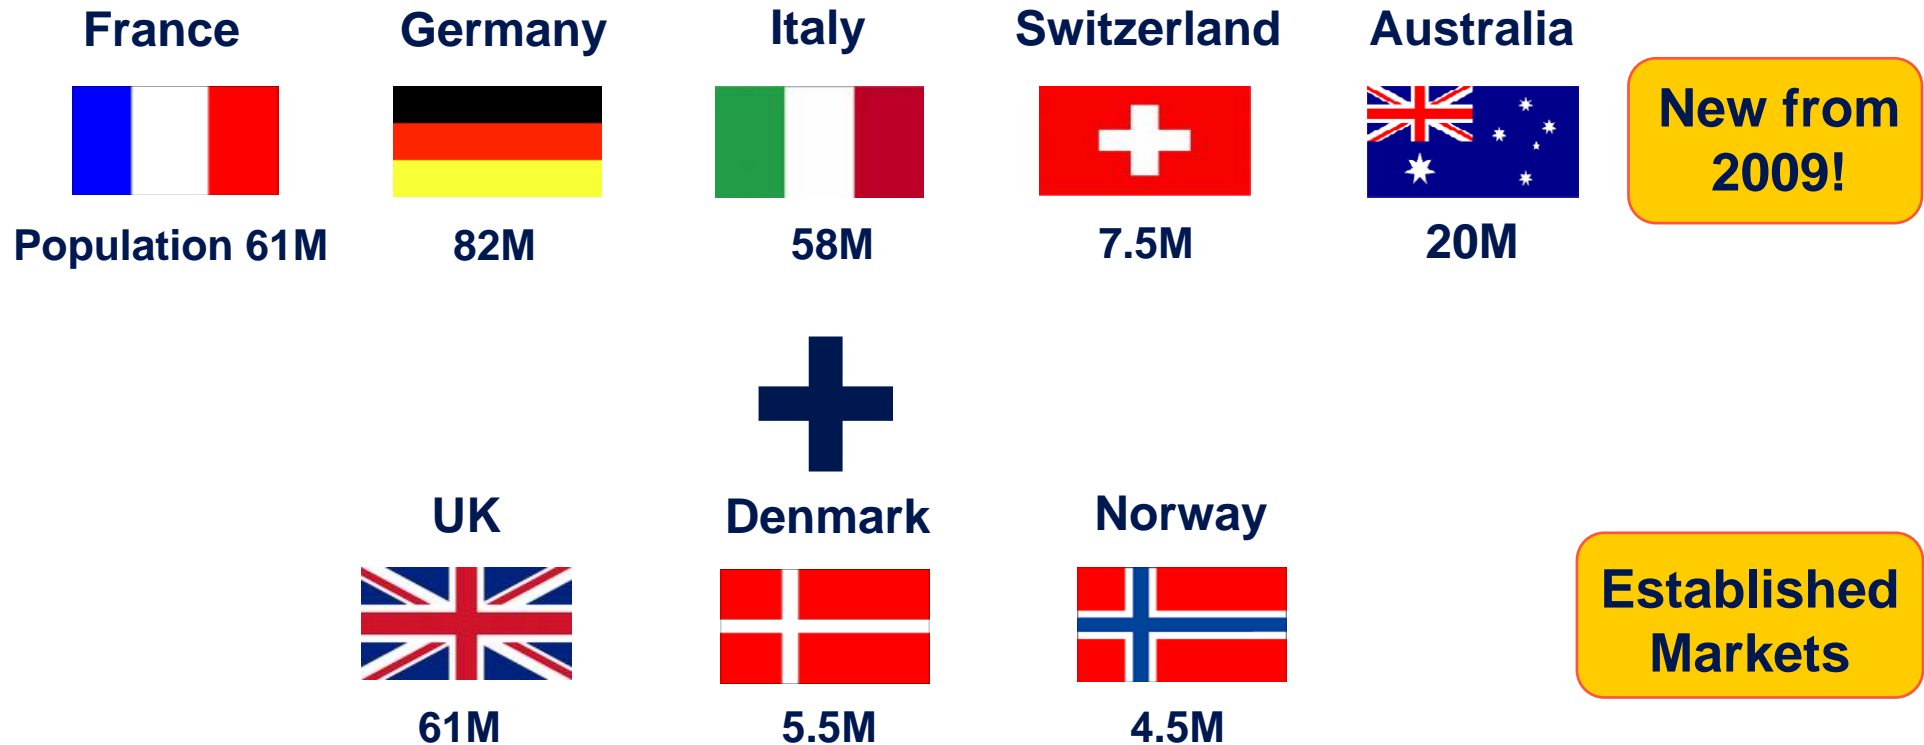

Closing remarks

Anthony Sethill, CEO Frontier Silicon
5th November 2008

Digital Broadcast Radio Market is set to explode!

- New Digital Broadcast Radio commercial roll-outs planned for next year

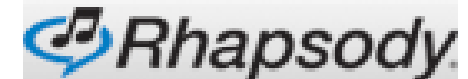

- Profile 1 DAB/DAB+/DMB provides huge economies-of-scale enabling audio manufactures to make one product for EU and Australia

- Internet Radio is evolving from the thousands of available radio stations and Pod Casts

-
- To offering subscription based on-demand juke box streaming services

-
- To providing personal radio services which predict what you want to listen too!

The logo for last.fm, featuring the text "last.fm" in a red, lowercase, sans-serif font.The logo for Pandora, featuring the text "PANDORA" in a blue, uppercase, serif font, with "internet radio" in a smaller, grey, lowercase, sans-serif font below it.

- **DAB & Internet connected content is driving innovation in audio products**
